

Hello,

Thank you so much for providing our company with 401(k) benefits. It makes a difference in helping me save for retirement.

As you probably know, we recently received our 401(k) fee information and the investment fees and fund expenses are often over 1%. It may be worth doing a cost comparison to see if we can lower our costs so more of our money stays invested, and everyone has the opportunity to build an even bigger nest egg.

As a quick point of reference, this provider offers a do-it-yourself 401(k) plan cost comparison at www.401kcomparison.com. I hope you find this helpful.

Thank you again for supporting us with a 401(k) plan.

Sincerely,
